EDUCATION

Vasavi College of Engineering, Hyderabad

• B.Tech - Computer Science Engineering (AI & ML)

2022 – 2026

GPA: 9.47/10

PROFESSIONAL SUMMARY

Software Development Engineer aspiring to build scalable and high-performance applications. Strong foundation in Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks and Full-Stack Development. Experienced in developing MERN Stack applications, REST APIs, cloud-based solutions, and machine learning systems. Solved 400+ LeetCode problems and passionate about creating efficient, maintainable, and user-centric software.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, C

Web Technologies: React.js, Node.js, Express.js, HTML, CSS

Databases: MongoDB, MySQL

Core Competencies: Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, DBMS, RESTful APIs, SDLC, Agile Methodology, Microservices Architecture.

Developer Tools: VS Code, Git, GitHub, Postman, Thunder Client, Figma, Jupyter Notebook, Google Colab

PROFESSIONAL EXPERIENCE

Quant & Algo Intern | Futures First

January 2026 - June 2026

- Developed and optimized real-time market surveillance alerts by processing high-frequency market data streams and generating actionable trading signals for 200+ active traders.
- Engineered low-latency alerting logic using Python, multithreading, and real-time market feeds, processing 10,000+ market updates per trading session and enabling rapid detection of volatility, liquidity shifts, and unusual market activity for traders, improving trade execution speed and supporting risk management decisions.
- Automated market data acquisition from 5+ exchange and financial websites using Selenium, Playwright, and REST APIs, reducing manual data collection efforts by 95% and supporting real-time quantitative analysis.

Full Stack Developer | Neuxa Global

May 2025 - October 2025

- Developed and deployed a critical FSSAI compliance module for the Seller Registration platform, implementing validation and document management workflows that achieved 90% onboarding data accuracy and regulatory compliance.
- Built responsive frontend components and scalable backend file-management services using Node.js, MongoDB, Multer, and Figma, improving media handling efficiency by 40% and supporting 500+ users across devices.

PROJECTS

Smart Health Care System | MERN Stack, Maps API, Cloudinary

[Github](#)

- Built a scalable and comprehensive healthcare platform using the MERN Stack to manage 100+ daily health records; integrated Cloudinary for secure document uploads, improving accessibility and management of medical records by 90%.
- Leveraged Google Maps API to deliver real-time hospital recommendations within a 10 km radius with 95% location accuracy, enhancing user experience through a responsive, intuitive UI.

Flipkart Reviews Sentiment Analysis System | Python, NLP, Machine Learning, Selenium

[Github](#)

- Engineered a sentiment analysis pipeline for Flipkart product reviews using Python-based NLP; leveraged Selenium to scrape and process 10,000+ customer reviews programmatically.
- Applied VADER Sentiment Intensity Analyzer and custom preprocessing to classify feedback into Positive, Negative, and Neutral categories, achieving 92% accuracy and delivering actionable business intelligence.

BudgetMate Expense Tracking Application | React.js, Node.js, Express.js, MongoDB, REST APIs

[Github](#)

- Architected and delivered a full-stack expense tracking application enabling 100+ users to log transactions, visualize financial summaries with dynamic charts, and track real-time balance updates.
- Designed and implemented JWT-based authentication in RESTful CRUD APIs with Express.js; optimized MongoDB Atlas queries, achieving a 30% improvement in application load time.

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Elite Certification:** Ranked in the top 5% nationwide in "Programming in Java".
- Oracle Certified Associate:** Certified in MySQL by Oracle University.
- DSA Proficiency:** Solved 400+ problems on LeetCode, demonstrating a strong foundation in DSA.
- Google Cloud Arcade Member:** Active member; hands-on experience with GCP services, cloud infrastructure, and cloud-native application development.
- Academic Merit Award:** Recognized as the class topper for outstanding academic performance.
